Lushai Hills 3, North Cachar 5, Naga Hills 4, 5, and Garo Hills 5.—Not censused, but an estimate was formed.

Lushai Hills 6, 7, Cachar not given, as the omission of the Lushai Hills from the censuses of 1881 and 1891 makes it impossible to draw any comparison.

Manipur 5, 16, 15.—Census papers deposited at the residence of the Lushai Hills from the censuses of 1881 and 1891 makes it impossible to draw any comparison.

Total Hill Districts 6, 7, 8, and 9.—Census papers deposited at the residence of the Lushai Hills from the censuses of 1881 and 1891 makes it impossible to draw any comparison.

Manipur from those of 1891 and 1892 were taken as a rule, agree with those shown in previous Census Reports, as adjustments of population have been made in consequence of the alteration of boundaries in all districts, except Sylhet, Kamrup, Lakhimpur, and the Lushai Hills.

The totals for the province do not even agree, as the Mokokchang subdivision was added between 1881 and 1891 and a small area containing 469 persons transferred from Bengal to Goalpara between 1891 and 1901. The figures have been prepared on the assumption that the boundaries of the province and each district were the same in 1872 and subsequent years as they are now, with the exception of the Lushai Hills, for which no variation has been struck, as they have been now censused for the first time.

Silchar 4.—Includes a cantonment population of 770 (males 635 and females 135).  
Gauhati 5.—North Gauhati was excluded from the Municipality in August 1891. The population of North and South Gauhati was 1—1901 14,244 ; 1891 10,817 ; 1881 11,695 ; 1872 11,492. The figures in brackets show the variations which would have taken place had there been no change in the boundaries of Gauhati.  
Dibrugarh 4.—Includes a cantonment population of 1,247 (males 718 and females 214).  
Kohima 4.—Includes a cantonment population of 2,191 (males 1,469 and females 347).  
Shillong 4.—Includes a cantonment population of 1,496 (males 1,217 and females 249).  
Imphal 4.—Includes a cantonment population of 1,496 (males 1,217 and females 249).  
Total 7, 15, 19.—The total of males and females for 1872 differs from the total population for that year, as the distribution of population by sex is not available for six towns.  
Total 11.—This column does not represent the difference between the urban population of 1881 and 1901 has been shown.  
comparison alone is shown. Where figures for 1872 are not obtainable, the variation between 1881 and 1901 has been shown.  
The area of the Barpeta and Sibsa towns was reduced between 1881 and 1891, and the figures for 1881 corrected accordingly. Similar corrections have been applied to the figures for 1872, but it is not known where the figures for Barpeta were obtained, as they are not recorded in the Bengal Census Report for 1872. The figures for Silchar, Goalpara, and Dibrugarh for 1872 are taken from the Census Report for 1881. It is not known where Mr. Driberg obtained these figures, and there is good ground for questioning the accuracy of those for Goalpara and Dibrugarh.

### Caste, Tribe, Race or Nationality.

---

#### REMARKS.

Some of the names of castes shown in this table are the names, not of castes, but of sub-castes, and even are titles. In these cases the true castes of the persons concerned could not be ascertained. The totals for each caste are shown under the religion to which the great majority of the members belong. The number of persons who have returned religions other than the main one are shown in the foot-notes.
